CURRICULUM

Master of Arts in Expressive Arts Therapy with a minor in Psychology

Being with the Arts is our Way of Being in the World.

Learn to work with the Arts as the teacher, a conduit of healing, for clients with disharmony in their life and disabilities in their body and mind. Through the process of Art-making, an Expressive Arts therapist discovers how their clients can live in a better way, how the Arts facilitate change, through personal growth and transformation.

Plan of Studies

The curriculum is divided into three Summer Residencies at the EGS Saas-Fee campus and continuous training with internships at local sites. There are three Intensive Training Seminars (ITS-P, ITS-D and IT-3) offered on campus in two session periods during the summer in Switzerland. In the interim periods (fall, winter and spring), students undertake their academic projects and internships, and participate in seminars for Expressive Arts Modules K, P, and F which are either offered by EGS on campus in Saas-Fee or by accredited Cooperating Institutes with approved teachers, training therapists and supervisors. A minimum of one year is necessary to complete the Master's Thesis requirement.

Study Modules for Master of Arts in Expressive Arts Therapy with a minor in Psychology:

Expressive Arts, Digital Arts and Media Module ITS-M/CT1 or Intermodal Expressive Arts Module K

Methods, Interdisciplinary Approach Module ITS-P

Praxis / Field Work Module ITS-A-P or Module P
