“RE-STORY-IN” Virtual Conferences 2024

THE INTERNATIONAL NETWORK OF EXPRESSIVE ARTS
THERAPY TRAINING CENTERS

Dear friends, colleagues and alumni,

We are thrilled to extend our heartfelt invitation to the Expressive Arts Virtual Conferences called “RE-STORY-IN”, created by the **International Network of Expressive Arts Therapy Training Centers**, taking place on **April 2nd, 3rd, and 4th, 2024**.

May this be a small window to restore our senses through immersing ourselves in the captivating beauty of the arts. Just as the butterfly effect demonstrates how small actions can have far-reaching consequences, we believe that our collective efforts to come together online, “enlarging our circle”, can alleviate our hearts, minds and bodies, by decentering from the confusion and injustices happening in the world today. Let us witness the stories as they unfold, weaving narratives of “handful hope” and envisioning possibilities for change. As we come together, binding cultures and nations, we create a beautiful tapestry of peace, hope and unity.

Like caterpillars within their cocoons, it is now the time to blossom into butterflies. Spring is the perfect moment to spread our wings, take flight, refresh and restore our minds and bodies. And as “Earhtlings” that we are, may we “trust the process”, despite all difficulties, finding new perspectives and “re-story-in” all that is alive in our physical and spiritual world.

By participating in this event, you will have the opportunity to:

- Engage in thought-creative discussions and lectures led by renowned experts in the field.
- Learn about institution's achievements and initiatives in the realm of expressive arts.
- Network with other EXA experts and establish valuable connections within the international EXA community.
- Gain insights into emerging trends and best practices in expressive arts education.

Let us dance in the space of enchanting tales, where butterfly wings carry threads of wisdom from distant lands. Together, we will create a symphony of voices, weaving narratives of profound significance, forging connections and fostering camaraderie with new colleagues within our international community.

We extend our gratitude to **Roseline De Thelin**, the talented artist who created the stunning imagery for our Online Spring Symposium 2024. We would also like to express

our deep appreciation to **Margo Fuchs Knill**, esteemed Professor and accomplished poet, for graciously sharing her profoundly moving poems for this event. We are also grateful to **Melinda Ashley Meyer** for her unwavering commitment to providing us with guidance, structure, and compassionate support. Lastly, we extended our appreciation to all the lecturers of the event. We appreciate not only their valuable contributions to the symposium but also we celebrate the incredible work they do in their parts of the World.

LECTURERS

The speakers are teachers and directors of **The International Network of Expressive Arts Therapy Training Centers** flourishing in the world through which we are generating work that aims to improve the quality of life of people and communities in the search of a healthier, peaceful existence and coexistence.

The participants will remain mainly in one group and will be sent into subgroups when needed for reflexions, creative excercises and networking purposes.

*What remains – essential?
Where does life live? I mean, where is it
when despair sits in the garden
and fear locks the door?
When rage storms tender hearts?*

*You say, we are more than neighboring
we are sisters and brothers
earthlings with a strong will
rising, gliding through destiny's cracks?*

*I believe in the next. Also in stuck-ness.
Also in the force of the arts,
my hands who can hold a brush, a pencil
to scratch the surface. Belly, hips, legs and feet
that have me loosening up for the dance
and the chorus, this heart opener
for peace.*
